62. Narrative of Supplemental Report On Monday, December 2nd, 2013 I was contacted By Riverside Police Department Forensics Technician Selena McKay-Davis #1310. Forensics Technician McKay-Davis set up a time to test fire a weapon on the Lincoln street range, so that spent casings and bullets could be collected for evidence/investigation purposes. This weapon was a .38 Special caliber Smith & Wesson Model 14-3, serial number K852842. Performing all of the following actions under Forensic Technician McKay-Davis' supervision, I first performed a cursory inspection of the firearm to ensure that it was safe to fire. I then set up the department's ballistic projectile recovery system on the range, into which I fired two rounds of Remington-Peters ("RP" headstamp) .38 Special ammunition. After each round was fired, the ballistic projectile recovery system was opened, the bullet retrieved and then packaged with its spent casing by Forensic Technician McKay-Davis. The weapon was then cleared and returned to Forensic Technician McKay-Davis. No further details. ELD1472										62a. Audio Recording Available? No		62b. Incident Number:		Reporting Officer E.
